| 4. Иван Иванов (zdzdz)       |                                 |

## Project Description:

Dynamic and challenging classic shooter game with fun user experience.

Our hero – **“Lady Sour”**, is left on a deserted island where she finds herself surrounded with hostile alien snails (**Snailiens**). Her main objective is – to survive. And while she’s trying, why not have some fun exterminating extraterrestrial life forms!?

## Controls (keyboard and mouse):

**Key – “Q”** – Blink forward with **150** units of range in the current facing direction.

**Key – “W”** – Blink forward with **300** units of range in the current facing direction.

**Key – “E”** – Blink forward with **450** units of range in the current facing direction.

**Key – “A”** – Release a spray of **8 bullets** in all directions outwards the Hero.

**“On – Left – Mouse – Click”** – Shoot a **lightning ball** of condensed energy.

**“On – Mouse – Move”** – Change the **facing direction** according to cursor position.

## Used technologies:

“jQuery”

“RequireJS”

“CreateJS”

“KineticJS”

“Snap.SVG”

“HTML5 Canvas”
